Introduction End-To-End Project

Precondition
Before start check out:
>   You have read and understood
>   - Basic Machine Learning Landscape Chapter 1
>   - Simple linear regression
>
>   If not look it up later.

The mission
In this lesson, we will:
>   Introduce the ML project management
>   Discuss how to get data
>   Explore and vizualize data
>   Performance measure
>   See a real example Housing prices
>   Introduce Softmax Regression

Outcome
After this lesson, you have learned about:
>   ML Project checklist
>   RMSE and MAE
>   Created a workspace
>   Downloaded housing data
>   Jupyter and Panda
>   Correlations
>   Histograms and scatter plot
>   Housing example in SciKit

Next step next week
Its time for some assignments:
>   Discuss and solve questions in the assignment *"Housing No. 1 Questions"*
